INDEX TO VOLUME 23

A

Abbott, Maude E., (in memoriam) 567
Abeshouse, B. S., 135*
Abramson, David I., and Fierst, S. M., 84
—, —, and Flachs, K., 817
Acetyl-β-methylcholine chloride, evaluation of local vasodilator effect of, by iontophoresis, 817
Adams, F. D., White, P. D., and Craib, D., 864*
Adrenal gland substance, tachycardia, ventricular, paroxysmal, from, and sinus standstill from intravenous quinidine in case of coronary occlusion, 289*
Allen, F. M., 139*
Altitude, high, effects of physical strain and, on heart and circulation, 441
American Heart Association, announcement, 146
Amputation, conservative, of gangrenous parts by chemosurgery, 138*
Andrus, W. D., Page, I. H., McSwain, B., and Knapp, G. M., 278*
Anemia, disturbance of heart in, 736 (B. rev.)
  sickle cell, heart in, 585*
Aneurysm, aortic, syndrome of rupture of, in pulmonary artery, 468
  arteriovenous, congenital, 587*
  of artery, basilar, contribution to study of, 435*
Angina pectoris, in young individuals with aortic insufficiency, 132*
  significant electrocardiographic changes following exercise in, 498
  treatment of, and coronary artery disease with sex hormones, 289*
Angiotonin, action of, on completely isolated mammalian heart, 37
  administration of, nature of arterial hypertension produced in normal subjects by, 288*
  effects, hemodynamic, of, in normal man, 288*
  of nephrectomy on blood pressure response to renin and, 278*
  of renin and, on renal blood flow and blood pressure of dog, 278*
Angiotonin—Cont'd
  response, pressor, of normal and hypertensive dogs to renin and, 284*
  tachyphylaxis to, method for perfusion of rabbit's ears, and its application to study of renin-angiotonin vasopressor system with note on, 336
Anitschkow myocyte, relation of, to rheumatic inflammation, 282*
Anomaly, congenital, arteriovenous anastomosis, 587*
  coarctation of aorta, collateral circulation in, 726*
    in children, syndrome of constriction of isthmus of aorta, with involvement of origin of left subclavian artery, 99
  ductus arteriosus, patent, ligation of, 436*
  pulmonary venous return via superior vena cava, 726*
Anoxemia, induced, test by, study by age groups, 306
  test by, 279*
    comparison of electrocardiographic changes observed during, on normal persons and on patients with coronary sclerosis, 837
Anoxia, effects of, on coronary blood flow, asphyxia, and myocardial ischemia, 725*
  its effect on the body, 874 (B. rev.)
  progressive, acute, cardiac adaptations in, 129*
Antistreptolysin O titer, observations on, in relation to mechanism of acute rheumatic fever, 866*
Aorta, aneurysm of, syndrome of rupture of, into pulmonary artery, 468
  coarctation of, circulation, collateral in, 726*
    in children, syndrome of constriction of isthmus of aorta, with involvement of origin of left subclavian artery, 99
  embolus, saddle, of, successful removal of, eleven days after coronary occlusion, 733*
  isthmus of, constriction of, syndrome of, with involvement of origin of left subclavian artery, 99
  necrosis, idiopathic cystic medial of, 731*

*An asterisk (*) after a page number indicates the reference is an abstract and not an original article.

Aortitis, syphilitic, diagnosis, early, of, 586*
Ape, coronary disease in, 719
Arteriosclerosis, sympathectomy, lumbar, in treatment of, of peripheral vascular system. II. Gangrene following operation in improperly selected cases, 493
Artery, basilar, cerebral, aneurysm of, contribution to study of, 435*
coronary, disease of, and occupation, 587*
in ape, 719
prolonged survival after perforation of infarcted interventricular septum in, 729*
role of, on etiology of auricular fibrillation, 136*
treatment of angina pectoris and, with sex hormones, 289*
surgical, of, experimental study of, 436*
hemorrhage, intimal, of, as factor in causation of coronary occlusion, 136*
occlusion, acute, of, acute pericarditis simulating, 247
successful removal of a saddle embolus of aorta eleven days after, 733*
causation of, intimal coronary artery, hemorrhage as factor in, 136*
experimental, influence of xanthine drugs and atropine on mortality rate after, 637
roentgenoscopy as diagnostic aid in, 285*
ventricular paroxysmal tachycardia from adrenalin and sinus standstill from intravenous quinidine in case of, 289*
of horse, 128*
sclerosis of, comparison of electrocardiographic changes observed during anoxemia test on normal persons and patients with, 837
thrombosis of, value of electrocardiogram in, with special reference to localization of infarct, 726*
embolism, puerperal, of, concerning question of, 434*
network of, supplying dorsum of foot, 130*
pulmonary, conus arteriosus and, 138*
embolism of, prophylaxis of, by division of femoral vein, 869*
thrombophlebitis and, 437*
syndrome of rupture of aortic aneurysm into, 468
Artery—Cont'd
subclavian, left, syndrome of constriction of isthmus of aorta, with involvement of origin of, 99
Ash, R., 133*
Asher, R., Perlow, S., Killian, S. T., and Katz, L. N., 128*
Ashman, Richard, 522
Asphyxia, effects of, on coronary blood flow, anoxia and myocardial ischemia, 725*
Asthma, bronchial, electrocardiographic changes in, and their significance, 692
Atherosclerosis, experimental, effect of testosterone propionate and estradiol dipropionate on, in rabbits, 582*
Atlas, Lawrence N., 285,* 436,* 493
Atropine, influence of xanthine drugs and, on mortality rate after experimental occlusion of coronary artery, 637
Autonomic nervous system: anatomy, physiology and surgical application, 875 (B. rev.)
Avery, N. L., Field, H., and Hoobler, S. W., 438*

B

Bacteremia, staphylococcus, without endocarditis, subacute staphylococcus endocarditis and, with report of favorable effect of sulfanilamide and sulfathiazole in two cases, 132*
Baggenstoss, A. H., and Barker, N. W., 434*
Bancroft, Huldah, and Saunders, G. M., 410
Banks, B. M., 731*
Barker, N. W., and Baggenstoss, A. H., 434*
Barnes, Arlie R., and Burchell, H. B., 247
Barton, W. A., and Heinbecker, P., 863*
Battro, A., Segura, R. G., and Lanari, A., 735*
Bauer, G., 869*
Bean, William Bennett, and Read, C. T., 362
Bell, T. A., Caviness, V. S., and Satterfield, G. H., 725*
Berconsky, I., Cossio, P., and Sabathie, L. G., 131*
Berk, L. H., 133*
Best, C. H., 582*
Bettinger, H. F., 583*
Bigger, I. A., 287*
Binswanger, Herbert F., and Meyer, J. C., 715
Blaisdell, I. H., and Ershler, I. L., 140*
Blalock, Alfred, 147
—, and Burwell, C. S., 584*
—, and Mason, M. F., 140*
—, and Wood, G. D., 139*

Blood, flow, coronary, of, effects of asphyxia, anoxia and myocardial ischemia in, 725*
critique of plethysmographic method of measuring, in extremities of man, 644
peripheral, of, in myxedema as compared with that in hyperthyroidism, 175
pulmonary, venous, return via superior vena cava, 726*
renal, of, and sympathectomy in hypertension, 135*
changes in blood pressure, glomerular filtration rate and, of hypertension patients following unilateral nephrectomy, 867*
effective, in separate kidneys of subjects with essential hypertension, 284*
in subjects with essential hypertension, 283*
effects of renin and angiotonin on, and blood pressure of dog, 278*
in experimental renal hypertension, 863*
resting, of, and peripheral vascular responses in hypertensive subjects, 84
pressure, arterial, accuracy of clinical measurement of, with note on auscultatory gap, 866*
changes in, and in renal blood flow and glomerular filtration rate of hypertensive patients following unilateral nephrectomy, 867*
following myocardial death, 870*
correlation between, and concentration of sulfocyanates in blood, 725*
cuff, improved for, 114
normal, cold-pressor test in subject with, 766
renal, effect of renin and angiotonin on blood flow and, of dog, 278*
response of, effect of nephrectomy on, to renin and angiotonin, 278*
studies of, in negro and white men and women living in Virgin Islands of United States, 410
venous, value of combined measurements of, and arm-to-tongue and arm-to-lung circulation time in study of heart failure, 22
vessels, intestinal, sclerosis of, 868*
larger, surgery, newer, of heart and, medical aspects, 869*
occlusion, temporary, of, ending fatally in uremia, 868
Blood—Cont'd
volume of, action of mercurial diuretics on, 864*
total and circulating, roentgenographic observations suggesting differences between, 130*
Blumenthal, B., Bohning, A., Katz, L. N., and Langendorf, R., 131*
Boas, Ernst P., 1, 439
Boas, Louis, and Collens, W. S., 114
Body, cooling of, effects of, comparison of peripheral and central vasomotor responses to cold, 43
temperature, reduced, of, in surgery. I. surgery of limbs, 139*
Boharas, S., Hollander, L., and Goldsmith, M., 586*
Bohning, A., Katz, L. N., Langendorf, R., and Blumenthal, B., 131*
Bonnell, R. W., Pritchett, C. P., and Hardin, T. E., 289*
Book reviews, 141, 439, 589, 736, 873, 874, 875
Anoxia: its effect on the body, 874
Autonomic nervous system, anatomy, physiology and surgical application, 875
Cardiac clinics, 589
Clinical electrocardiography, 736
Pre-eclamptic and eclamptic toxemia of pregnancy, 873
Surgery of heart, 141
Trastornos cardiacos en los estados anemicos, 736
Treatment of patient past fifty, 439
Bordley, J., III, and Ragan, C., 866*
Bourne, G., 583*
Boxing, effects of, study, electrocardiographic, of, 59
Boyd, Linn J., and Scherf, D., 736
Boyer, Norman H., 797
—, Leach, C. E., and White, P. D., 137*
Bradley, S. E., and Parker, B., 288*
Bramwell, C., and Jones, A. M., 726*
Brandes, Walter W., Gray, J. A. C., and MacLeod, N. W., 426
Brill, I. C., and Meissner, W. A., 136*
Brown, Edward E., and Wasson, V. P., 291
Bruenn, H. G., Levy, R. L., Patterson, J. E., and Clark, T. W., 279*
Bruger, M., Ludden, J. B., and Wright, I. S., 582*
Burch, G. E., Cohn, A. E., and Neumann, C., 185
Burchell, Howard B., and Barnes, A. R., 247
Burnett, Clough Turrill, Nims, M. G., and Josephson, C. J., 306
Burton, S. D., and Mehlman, J. S., 864*
Burwell, C. S., and Blalock, A., 584*
Butterworth, J. Scott, and Poindexter, C. A., 59
Button, W. H., Jr., and Stowell, D. D., 282*

C

Cahan, J. M., 133*
Calvin, J. K., and Killian, S. T., 584*
Capillary, permeability and inflammation of, in rabbits given heparin, 140*
Carbon dioxide, value of baths with, in treatment of peripheral vascular disease and allied conditions, 349
Cardiac clinics, 589 (B. rev.)
Cardiology as specialty, 161
Cardiovascular system, disease, syphilitic, of, and bacterial endocarditis, 208
pathology of, experimental studies in, IV. methyl cellulose atheromatosis and thesaurosis, 588*
syphilis of, 133*
public health aspects of, in New York City, 134*
Carditis (*see* heart, disease of)
Carrillo, E. García, 170
Causalgia, minor, following injuries and wounds, 288*
Cavernous sinus, thrombosis of, massive hematuria following use of heparin in, 140*
Caviness, V. S., Bell, T. A., and Satterfield, G. H., 725*
Cedilanid (*see* lanatoside C)
Central nervous system, manifestations in, in acute myocardial infarction, 362
Chamberlain, Francis L., and Sokolow, M., 243, 245
—, White, P. D., and Graybiel, A., 582*
Chasis, H., Goldring, W., Ranges, H. A., and Smith, H. W., 283*
—, and Redish, J., 284*
Chasnoff, J., Lieberson, A., and Goldbloom, A. A., 726*
Chemosurgery, amputation, conservative, of gangrenous parts by, 138*
Child health and Selective Service physical standards, 733*
Childhood, evolution of rheumatic heart disease in, 135*
Children, coaretation of aorta in, syndrome of constriction of isthmus of aorta with involvement of origin of left subclavian artery, 99
facilities in United States for special care of, with rheumatic heart disease, 433*
hypertension and pyelonephritis of, 586*
renal, in, clinicopathologic studies, 584*
with rheumatic heart disease, twenty years' observation of, 282*
Ciocco, A., Klein, H., and Palmer, C. E., 733*
Circulation, collateral, effective method for development of, to myocardium, 863*
experimental, of heart, 285*
coronary, alterations, morphological and functional, of, 866*
insufficiency, chronic, of, therapeutic pericarditis by intrapericardial injection, 803
effects of interrupting and restoring, to lower extremities, 872*
of physical strain and high altitudes on heart and, 441
failure of, in acute infections, 138*
peripheral, failure of, 147
physiology, pathologic, of, in acute thrombophlebitis and the post-thrombotic syndrome, 390
time of, arm-to-tongue and arm-to-lung, value of combined measurements of venous pressure and, in study of heart failure, 22
Clark, T. W., Levy, R. L., Patterson, J. E., and Bruenn, H. G., 279*
—, Patterson, J. E., and Levy, R. L., 837
Clawson, B. J., 282*
Cocarboxylase, action of thiamine and, on frog ventricle, 870*
Coffen, T. H., Rush, H. P., and Miller, R. F., 284*
Cohn, A. E., Burch, G. E., and Neumann, C., 185
Cold, comparison of, effects of heat and those of, in prevention and treatment of shock, 140*
peripheral, comparison of, and central vasomotor responses to, 43
Cold-pressor test, in subjects with normal blood pressure, 766
Cole, G. C., 138*
Cole, W. H., Weber, R. D., and Keeton, R. W., 287*
Collapse, nontraumatic, acute fatal, associated with physical exertion, mechanisms involved in, 761
Collens, William S., and Boas, L., 114
Compensation in heart disease, effort, trauma, occupation and, 734*
Conus arteriosus and pulmonary artery, 138*
Cooke, W. T., and White, P. D., 281*
Corcoran, A. C., and Page, I. H., 135,* 863*
—, Herrick, J. F., and Essex, H. E., 278*
Cossio, P., 726*
—, Sabathie, L. G., and Berconsky, I., 131*
Crafoord, C., and Jorpes, E., 137*
Craib, D., White, P. D., and Adams, F. D., 864*
Cuykendall, M., 871*

D

Dauber, D., Landowne, M., Katz, L. N., and Weinberg, H., 872*
Davies, D. H., 731*
Death, sudden, of patients with few symptoms of heart disease, 281*
unexpected, congenital heart disease as cause of, in children under one year of age, 583*
Dermatomyositis, is there common denominator in scleroderma, disseminated lupus erythematosus, Libman-Sacks syndrome, polyarteritis nodosa and, 731*
Dermatophytosis relationship, causative, of, to thrombangiitis obliterans, 730*
Dexter, Lewis, and Weiss, S., 873
Digitalis, effect of, on dog's heart, effect of pentobarbital on cardiac conduction system of, 772
Dill, D. B., 441
Di Palma, Joseph R., Reynolds, S. R. M., and Foster, F. I., 377
Disease, infectious, acute, circulatory failure in, 138*
Diuretics, mercurial, action of, on blood volume, 864*
Dock, W., Shidler, F., and Moy, B., 513
Dressler, W., 129*
Dublin, Louis I., 16
Ductus arteriosus, patent, changes in renal function and persistence of a murmur after ligature of, 583*
ligation of, 436*
rationale of operative treatment of subacute bacterial endoarteritis superimposed on, 847
subacute *Streptococcus viridans* endoarteritis superimposed on, 857
patency of, in adults, 183*
Duncan, C. N., and Wilkins, R. W., 288*
Dystrophy, vasospastic, traumatic, of extremities, 285*

E

Ebert, R. V., and Stead, E. A., Jr., 138*
Eden, K. C., and Trotter, W. R., 433*
Effort, in heart disease, trauma, occupation and compensation in, 734*
Electrocardiogram, alterations of S-T segment of T-wave during or after prolonged crises of paroxysmal tachycardia, 131*
changes in, comparison of, observed during anoxemia test in normal persons and on patients with coronary sclerosis, 837
Electrocardiogram, changes in—Cont'd
in bronchial asthma and their significance, 692
significant, in, following exercise in angina pectoris, 498
chest lead CR_4 in auricular fibrillation, 865*
device for obtaining leads from precordium, 116
duration, normal, of Q-T interval, 522
fetal, recording of, 64
of Stokes-Adams attack, 279*
study of effects of boxing, 59
value of, in coronary thrombosis with special reference to localization of infarct, 726*
Electrocardiography, clinical, 736 (B. rev.)
new type of electrode for, 424
studies, clinical, in, IV value of electrocardiogram in coronary thrombosis with special reference to localization of infarct, 726*
Electrode, electrocardiographic, simple, indifferent, of zero potential, and a technic of obtaining augmented unipolar, extremity leads, 483
type, new, of, for electrocardiography, 424
Elephantiasis, treatment, surgical, of, 286*
Embolus, saddle, removal, successful, of, of aorta, eleven days after acute coronary occlusion, 733*
Endarteritis, bacterial, subacute, rationale of operative treatment of, superimposed on patent ductus arteriosus, 847
Streptococcus viridans, subacute, superimposed on patent ductus arteriosus, 857
Endocarditis, bacterial, mixed infections in, 823
subacute, results of chemotherapy in, 438*
syphilitic cardiovascular disease and, 208
staphylococcus, subacute, and staphylococcus bacteremia without endocarditis with report of favorable effect of sulfanilamide and sulfathiazole in two cases, 132*
Ephetonin, action of, comparative studies on, in normal and hypertensive subjects, 588*
Epstein, E. S., and Greenspan, E. B., 729*
Ergogram, studies by, on normal subjects and on patients with intermittent claudication, 782

Ergotamine, gangrene from, production of, in rats, effect of sex hormones on, 164
Ernstene, A. C., and Schneider, R. W., 132*
Erratum, 737
Ershler, I. L., and Blaisdell, I. H., 140*
Erythrocytosis, uncomplicated, effects of, 139*
Essex, H. E., Herrick, J. F., and Corcoran, A. C., 278*
Estradiol dipropionate, effect of testosterone propionate and, on experimental atherosclerosis in rabbits, 582*
Evans, G., 289*
Evans, W., 865*
—, Parkinson, J., and Papp, C., 279*
Evans, Willis F., and and Stewart, H. J., 175
Exercise, physical, mechanisms involved in acute fatal nontraumatic collapse associated with, 761
significant electrocardiographic changes following, in angina pectoris, 498

F

Fauteux, M., 436*
Faxon, H. H., and Welch, C. E., 437*
Feldt, Robert H., and Wenstrand, D. E. W., 766
Felsen, J., 868*
Fenn, G. K., LeRoy, G. V., and Gilbert, N. C., 637
Fibrillation, auricular, chest lead (CR_4) electrocardiograms in, 865*
etiology of, role of coronary artery disease in, 136*
Field, H., Hoobler, S. W., and Avery, N. L., 438*
Fierst, Sidney M., and Abramson, D. I., 84
—, —, and Flachs, K., 817
Fine, J., and Sears, J. B., 869*
Flachs, Kamillo, Abramson, D. I., and Fierst, S. M., 817
Foster, Francis I., Di Palma, J. R., and Reynolds, S. R. M., 377
Freeman, Norman E., and Montgomery, H., 224
Friedman, M., Selzer, A., Kreutzmann, H., and Sampson, J. J., 867*
Frolkis, N. K., 586*
Friedbacher, K., 287*

G

Gangrene, amputation, conservative, of, by chemosurgery, 138*
ergotamine, production of, in rats, effect of sex hormones on, 164
following lumbar sympathectomy in treatment of peripheral arteriosclerotic disease, 493
Gebauer, P. W., and Nichol, A. D., 436*
Geckeler, G. D., 132*
Geriatrics, treatment of patients past fifty, 439 (B. rev.)
Gilbert, N. C., LeRoy, G. V., and Fenn, G. K., 637
Gillespie, J. E. O'N., 726*
Ginsburg, Emanuel, Proger, S., and Magendantz, H., 555
Glazebrook, A. J., and Thomson, S., 730*
Glen, A. M., 868
Glomerulus, rate of filtration of, changes in blood pressure, renal blood flow and, of hypertensive patients following unilateral nephrectomy, 867*
Glycogen, cardiac and hepatic, effect of insulin on, 289*
Godfrey, E. W., Rutherford, R. B., and Griffith, J. Q., Jr., 130*
Goetz, Robert H., 782
Goldberger, Emanuel, 483
Goldblatt, H., Kahn, J. R., and Lewis, H. A., 867*
Goldbloom, A. A., Lieberson, A., and Chasnoff, J., 726*
Goldring, W., Chasis, H., Ranges, H. A., and Smith, H. W., 283*
Goldsmith, M., Boharas, S., and Hollander, L., 586*
Gray, J. A. C., Brandes, W. W., and MacLeod, N. W., 426
Graybiel, A., White, P. D., and Chamberlain, F. L., 582*
Green, C. A., 866*
Green, H. D., and Wégria, R., 725*
Greene, David, and Schwartz, S. P., 99
Greenspan, E. B., and Epstein, E. L., 729*
Griffith, J. Q., Jr., Rutherford, R. B., and Godfrey, E. W., 130*
Grimson, K. S., 135*

H

Hardin, T. W., Bonnell, R. W., and Pritchett, C. P., 289*
Harkavy, Joseph, and Romanoff, A., 692
Harris, R. I., 437*
Heart, adaptation of, in acute progressive anoxia, 129*
auscultation of, 864*
block, bundle branch, so-called intraventricular block, including, 131*
complete, permanent, sinoauricular block and retrograde auricular conduction in case of, 269
traumatic, of eighteen years' duration, 284*
electrocardiograms of Stokes-Adams attacks, 279*
intraventricular, including so-called bundle branch block, 131*

Heart, block—Cont'd
sinoauricular, and retrograde auricular conduction in case of permanent complete heart block, 269
sinus, from intravenous quinidine, ventricular paroxysmal tachycardia from adrenalin and, in case of coronary occlusion, 289*
circulation, collateral, experimental of, 287*
conduction system of, effect of pentobarbital on, of digitalized dog's heart, 772
crises, acute, of, observations on effect of tourniquets on, normal subjects and chronic heart failure, 624
digitalized, dog's, effect of pentobarbital on cardiac conduction system of, 772
disease of, and foci of infection, 586*
and public health, 16
congenital, of, as cause of sudden unexpected death in children under one year of age, 583*
calculation of venous arterial shunt in, 131*
effects of ingestion of excessive amounts of sodium chloride and water on patients with, 555
effort, trauma, occupation and compensation in, 734*
incidence of, in university student age group, 871*
patients with few symptoms of, sudden death of, 281*
patient with, what sensible living and natural recovery can do for, 131*
rheumatic, of, children with, facilities in United States for special care of, 433*
evolution of, in children, 133*
heart in combined syphilitic aortic valvulitis and, 585*
in a tropical country, 170
in families, 133*
twenty years' observation of children with, 282*
disorders, functional, of, 438*
disturbance of, in anemic states, 736 (B. rev.)
effects of physical strain and high altitudes on, and circulation, 441
enlargement of, 583*
failure of, study of, value of combined measurements of venous pressure and arm-to-tongue and arm-to-lung circulation times in, 22
Heart, failure—Cont'd
chronic, of, observation on effect of tourniquets on acute cardiac crises, normal subjects and, 624
congestive of, prognosis, immediate of, 137*
total thyroidectomy for, 433*
in combined syphilitic aortic valvulitis and rheumatic heart disease, 585*
in sickle cell anemia, 585*
infarction of (*see* myocardium, infarction of)
mammalian, isolated, completely, action of angiotonin on, 37
mechanism of, abnormalities of, postpartum collapse, associated with, with continuous electrocardiographic studies, 576
murmurs of, note on revised terminology of, 864*
apical, diastolic, of, with mitral stenosis, 809
systolic, of, significance of, 584*
normal, anatomy and physiology of structural units, 455
position of, variation in, inversion of T wave in Lead II caused by, 582*
sounds of, lateralization and comparison of, symballophone for, 582*
murmurs, arrythmias of, phonograph records of, 132*
normal of, graphic registration of, 591
third, of, studies on, 797
studies in physical diagnosis of, I. percussion, 129*
surgery of, 141 (B. rev.)
newer, of, and large vessels, medical aspects, 869*
thrombus, infected, of, 197
Heat, conservation and dissipation of, autonomic mechanism of, II. effects of cooling the body, a comparison of peripheral and central vasomotor responses to cold, 43
effect of, comparison of, and those of cold in prevention and treatment of shock, 140*
Hedley, O. F., 433*
Heinbecker, P., and Barton, W. A., 863*
Hematuria, massive, following use of heparin in cavernous sinus thrombosis, 140*
Hemoconcentration, uncomplicated, effects of, 139*
Hemorrhage, isinglass as transfusion fluid in, 139*
Heparin and thrombosis, 582*
as prophylactic against thrombosis, 137*

Heparin—Cont'd
capillary permeability and inflammation in rabbits given, 140*
early diagnosis of venous thrombosis with aid of phlebography and abortive treatment with, 869*
hematuria, massive, following use of, in cavernous sinus thrombosis, 140*
Herrick, J. F., Corcoran, A. C., and Essex, H. E., 278*
Hollander, L., Boharas, S., and Goldsmith, M., 586*
Homans, J., 288*
Hoobler, S. W., Field, H., and Avery, H. L., 438*
Hormones, sex, effect of, on production of ergotamine gangrene in rats, 164
treatment of angina pectoris and coronary artery disease with, 289*
Horse, coronary arteries of, 128*
Huber, J. F., 130*
Hueper, W. C., 588*
Hussey, Hugh Hudson, and Veal, J. R., 390
—, Wallace, J. J., and Sullivan, J. C., 22
1-α-hydroxy-β-methylamino-3-hydroxy ethylbenzene hydrochloride, effect, cardiocirculatory, in man of, 871*
Hyman, A., and Lester, H. E., 286*
Hyndman, Olan R., and Wolkin, J., 43, 535
Hyperemia, reactive, quantitative, measurement of, in human skin, 377
Hypertensin, action of, in normal and hypertensive subjects, 735*
Hypertension and pyelonephritis of children, 586*
and unilateral renal disease, 135*
arterial, nature of, produced in normal subjects by administration of angiotonin, 288*
experimental, nature of, clinical and, 730*
study of rate of water loss from surface of finger tips and toe tips of normal and senile subjects and patients with, 185
atrophy, unilateral, renal, associated with, 434*
blood flow, renal, and sympathectomy in, 135*
essential, effective renal blood flow in separate kidneys of subjects with, 284*
effective renal blood flow in subjects with, 288*
neurogenic and renal, sympathetic nervous system in, 135*
Hypertension—Cont'd
patient with, changes in blood pressure in renal blood flow and glomerular filtration rate of, following unilateral nephrectomy, 867*
pressure response of normal and hypertensive dogs to renin and angiotonin, 284*
renal, in children, clinicopathologic studies, 584*
experimental, effect of renin on, in dog, 134*
renal blood flow in, 863*
vasomotor center essential in maintaining, 513
studies on, XV. experimental observations on hypertension associated with unilateral renal disease, effect of occlusion of ureter on experimental hypertension due to unilateral ischemia, 867*
subjects with, resting blood flow and peripheral vascular responses in, 84
treatment, surgical, of, II. comparison of mortality following operation with that of Wagner-Keith medically treated control series, 437*
Hyperthyroidism, blood flow, peripheral in myxedema as compared with that in, 175
Hypotension, orthostatic, 586*

I

Ichthyocolla, as transfusion fluid in hemorrhage, 139*
Infancy, tachycardia, supraventricular in, 729*
Infarct, localization of, value of electrocardiogram in coronary thrombosis with special reference to, 726*
Insulin, effect of, or cardiac and liver glycogen, 289*
Intermittent claudication, ergographic studies on normal subjects and on patients with, 782
treatment of, lumbar sympathectomy in, 224
Intima, hemorrhage in, of coronary artery as factor in causation of coronary occlusion, 136*
Iontophoresis, evaluation of local vasodilator, effect of acetyl-β-methylcholine chloride by, 817
Isinglass (*see* ichthyocolla)
